Mode Notes Reference FS1 Flight Simulator Discontinued 1979-1980 Sublogic Sublogic Sublogic Sublogic FS1 Flight Simulator is a flight Simulator in the cockpit of a slightly modernized Sopwith Camel. FS1 is the first in a line of simulations from Sublogic which, beginning in 1982, were also sold by Microsoft as Microsoft Flight Simulation Discontinued 1982 Psion Sinclair ZX Spectrum, Timex Sinclair ZX Spectrum, Tim Sinclair Research for the Sinclair ZX81 and ZX Spectrum home computers. In the United States, Timex Sinclair marketed the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version as The Flight Simulator for the American version of the ZX81 version version of the ZX81 version version of the ZX81 version Discontinued 1982 Sublogic Microsoft IBM PC Single-player Flight Simulator video game, released in November 1982 for the IBM PC. It is the first release in the Microsoft Flight Simulator II Discontinued 1983–1987 Sublogic Sublog TurboGrafx-16, Sharp X68000, ZX Spectrum, Nintendo 3DS Single-player Thunder Blade is a third-person shooting combat flight simulator game originally released by Sega for arcades in 1987. Players control a helicopter to destroy enemy vehicles. The game was released as a standard stand-up arcade cabinet with force feedback, as the joystick vibrates. A helicopter shaped sit-down model was released, replacing the force feedback with a cockpit seat that moves in tandem with the joystick. It is a motion simulator cabinet, like the previous Sega Super Scaler games Space Harrier (1983). Air Warrior Discontinued 1988 Kesmai Konami Windows, 3DO, Amiga, Atari ST, CDTV, FM Towns, Mac OS Single-player, Multiplayer online games, hosting hundreds of users during busy periods. Super Thunder Blade Discontinued 1988–1990 Sega Sega Mega Drive/Genesis, PlayStation 2, PlayStation Portable, Virtual Console Single-player Super Thunder Blade is a combat flight simulation shooter game developed and published by Sega for the Mega Drive/Genesis console. It was one of the six launch titles for the console for its U.S. launch. It is a follow-up to the 1987 arcade game Thunder Blade. Air Inferno Discontinued 1990 Taito Arcade game Single-player Air Inferno is a 1990 flight simulation arcade video game developed and released by Taito, in Japan, Europe and North America. A spin-off from Taito's Landing series, Air Inferno is an aerial firefighting simulation that involves piloting a helicopter on various rescue missions, shooting a fire extinguisher to extinguisher to extinguish flames while rescuing civilians. [2] Flight Assignment: A.T.P. (Airline Transport Pilot or simply ATP) was an amateur flight simulator released in 1990 by the Sublogic Corporation. It runs on DOS based PCs. The simulation models the Boeing 737, 747, 767, Airbus A320 and Shorts 360. It features most major aviation beacons in the United States and about 30 major airports. It also includes a multi-voiced air traffic control simulator. Falcon 3.0 Discontinued 1991 Sphere Inc. Spectrum HoloByte, MicroProse DOS Single-player, Multiplayer Falcon 3.0 is a combat flight simulator video game developed by Sphere Inc. and published by Spectrum HoloByte in 1991 as third official main entry in the Falcon series of the F-16 Fighting Falcon simulators. Warbirds Discontinued 1991 Atari Corporation Atari Corporation Atari Lynx Singleplayer, multiplayer Warbirds is a 1991 first-person combat flight simulation video game developed and published by Atari Corporation in North America and Europe exclusively for the Atari Lynx. Taking place in the 1910s during World War I, players assume the role of a rookie aircraft pilot from the Army Air Force who joined the titular squadron taking control of a prebuilt biplane in order to win the war against the enemies. Its gameplay mainly consists of dogfights against either AI-controlled opponents or other human players using the Lynx's ComLynx system, with a main four-button configuration. Steel Talons Discontinued 1991–1992 Atari Games Atari Games Arcade, Atari Falcon, Lynx,

Genesis, SNES Single-player, multiplayer Steel Talons is a 3D combat flight simulator arcade game released by Atari Games in 1991. The player takes on the role of a pilot for an "AT1196 Steel Talons combat helicopter". Steel Talons was ported to the Sega Genesis, Atari Lynx, Atari ST, and the Super Nintendo Entertainment System. A Jaguar port was announced, but never released. A320 Airbus Discontinued 1991-1993 Thalion Software Amiga, Atari ST, MS-DOS Single player A320. The game was developed over three years with cooperation from Lufthansa, Deutsche Airbus, and Jeppesen. The game was written by Rainer Bopf for the Amiga and converted to the Atari ST by Christian Jungen. The most recent version of the game is 1.44. Gunship 2000 Discontinued 1991–1996 MicroProse MicroProse MicroProse DOS, Amiga, PC-98, Amiga CD32, PlayStation Single player helicopter combat flight simulation video game developed and published by MicroProse as a follow-up to their earlier game Gunship. It was originally released in 1991 for DOS; this version were released in 1992. The Amiga, PC-98, Amiga CD32 and PlayStation version was retitled as simply Gunship, but was sometimes still referred to as Gunship 2000). 1942: The Pacific Air War Discontinued 1994 MPS Labs MicroProse MS-DOS, PC-98 Single-player Fleet Defender is a combat flight simulator published by MicroProse in 1994. The game uses the F-14B version of the F-14 Tomcat even where anachronistic because the developers found the original, underpowered F-14A unforgiving and "not much fun" in an entertainment flight simulator. An expansion pack, Fleet Defender: Scenario, and a port for the PC-98 were released in 1995. Flight Unlimited Discontinued 1995 LookingGlass Technologies LookingGlass Technologies DOS, Windows 95, Macintosh Single-player Flight Unlimited Discontinued 1995 aerobatic flight simulator video game developed and published by LookingGlass Technologies. It allows players to pilot reproductions of real-world aircraft and to perform aerobatic maneuvers. They may fly freely, race through floating rings against a timer or take lessons from a virtual flight instructor. The instructor teaches basic and Immelmann turn. SimCopter Discontinued 1996 Maxis Maxis Microsoft Windows Single-player 1996 flight simulator video game developed by Maxis. It puts the player into a 3D city. Like Streets of SimCity, SimCopter lets the user import Single-player FlightGear developers & contributors FlightGear devel atmospheric and orbital flight simulator used in aerospace research and industry. Its flight Unlimited II Discontined 1997 Looking Glass Studios Eidos Interactive Windows 95 Single-player Flight Unlimited II is a 1997 flight simulator video game developed by Looking Glass Studios and published by Eidos Interactive. The player controls one of five planes in the airspace of the San Francisco Bay Area, which is shared with up to 600 artificially intelligent aircraft directed by real-time air traffic control. The game eschews the aerobatics focus of its predecessor, Flight Unlimited, in favor of general civilian aviation. As such, new physics code and an engine were developed, the former because the programmer of Flight Unlimited's computational fluid dynamics system, Seamus Blackley, had left the company. F-22 Raptor (video game) Active 1997 Novalogic Microsoft Windows Single player, multiplayer F-22 Raptor is a combat flight simulation video game released by Novalogic in 1997. Falcon 4.0 Discontinued 1998 MicroProse Alameda Hasbro Interactive Windows, Mac OS Single-player, Multiplayer Falcon 4.0 bis a combat flight simulation video game developed by MicroProse and published by Hasbro Interactive in 1998. The game is based around a realistic simulation of the Block 50/52 F-16 Fighting Falcon jet fighter in a full-scale modern war set in the Korean Peninsula. Falcon 4.0's dynamic campaign engine runs autonomously. AeroWings Discontinued 1999 CRI Middleware, Crave Entertainment Dreamcast Single-player, multiplayer AeroWings is a flight simulator for Sega's Dreamcast video game console. The player can train with squads, learn the ropes of handling the aircraft, and doing tricks after mastering the different stunts. Flight Unlimited III is a 1999 flight simulator video game developed by Looking Glass Studios and published by Electronic Arts. It allows players to pilot simulations of real-world commercial and civilian aircraft in and around Seattle, Washington. Players can fly freely or engage in "Challenge" missions, such as thwarting a theft or locating Bigfoot. The development team built on the general aviation gameplay of Flight Unlimited II, with more detailed physics and terrain, more planes, and a real-time weather system. Roughly half of Flight Unlimited II's team returned to work on the sequel, supported by new hires. Fly! Discontinued 1999 Terminal Reality Gathering of Developers Microsoft Windows, Macintosh Single-player Fly! is an amateur flight simulator for Microsoft Windows, OS X and Linux-based operating systems such as Ubuntu. Microsoft Flight Simulator 2002 Discontinued 2001 Microsoft Mic an editor to create buildings and aircraft. Jane's Attack Squadron Discontinued 2002 Looking Glass Studios, Mad Doc Software Xicat Interactive Microsoft Windows Single-player, Multiplayer Jane's Attack Squadron is a 2002 combat flight simulator developed by Looking Glass Studios and Mad Doc Software and published by Xicat Interactive. Based on World War II, the game allows players to pilot fifteen reproductions of that era's military aircraft and to carry out missions for the Axis or Allies. Although it contains dogfights, the game focuses largely on air-to-ground combat, hence the title. Microsoft Flight Simulator 2004: A Century of Flight Discontinued 2003 Microsoft Game Studios Microsoft Game Studios Microsoft Windows Single-player, Multiplayer Flight simulation video game released in 2003, and is part of the Microsoft Flight Simulator video game series. It is the last version to support Windows 98/9x series of operating systems. Falcon 4.0: Allied Force Discontinued 2005 Lead Pursuit Graphsim Entertainment Windows Mac (OS X) Single-player, Multiplayer Falcon 4.0: Allied Force (F4AF) is an F-16 based combat flight simulator released by Lead Pursuit in 2005. The game is based around a realistic simulator X Discontinued 2006–2014 Aces Game Studio Xbox Game Studios Microsoft Windows Single-player, Multiplayer It is the sequel to Microsoft Flight Simulator series, which was first released in 1982. It is built on an upgraded graphics rendering engine, showcasing DirectX 10 features in Windows Vista and was marketed by Microsoft as the most important technological milestone in the series at the time. FSX is the first version in the series to be released on DVD media. [6] Digital Combat Simulator Active 2008-2009 Eagle Dynamics The Fighter Collection Microsoft Windows Single-player, Multiplayer Free-to-play game that includes two free aircraft and two free maps. Modules are downloadable content that expand the game with add-on aircraft, maps, and other content. Campaigns are scripted sets of missions. Modules and campaigns are produced by Eagle Dynamics as well as third-parties. [1] Rise of Flight: The First Great Air War Discontinued 2009 Neogh, 777 Studios, Aerosoft, ND Games Microsoft Windows Single-player, Multiplayer A World War I combat flight simulation video game by Russian developer 777 Studios and released on May 7, 2009. GeoFS Active 2010 Xavier Tassin Web platform, Android, iOS Multiplayer The game features a variety of planes including aircraft contributed from the community.
